

HELLENIC AMERICAN UNION

An educational public charity

REGULATIONS FOR HAU LABS

1. All Parents/Guardians are kindly requested to adhere to the announced lab schedule. Any delays in arrival or departure cause frustration, unwelcome interruptions to the program flow, and often deprive children of part of the joy of the lab!
2. Parents/guardians are not allowed to stay in the area outside the venue in which the lab is conducted. Waiting outside the classroom may disrupt the flow of the lesson and distract the children.
3. If your child is accompanied by someone other than parent/guardian (e.g., a babysitter or a grandparent), the Hellenic American Union (HAU) must have the full contact details of that person, if they differ from the information already provided upon registration. Additionally, companions must not in any way hinder the educational process (e.g., by using a mobile phone during the lab).
4. If your child is to be picked up by someone other than you (e.g., babysitter, grandparent) at the end of the lab, kindly note that in this case, the designated person must bear proof of identification that must be presented to the HAU representative. Please note that in such a case, you must have timely informed the Registration and Student Services Office, providing the full name of the person who will collect the child.
5. If your child is feeling unwell, has a cough, or shows signs of a cold or runny nose, please do not bring them to the lab.
6. Children attending labs should bring a water bottle labeled with their name and a change of clothes.
7. In case of absence, labs will not be rescheduled or replaced by another one on a different date. Kindly note that the HAU is not obligated to provide a refund the fee for a missed lab. The same applies even if the full amount for all labs has been paid in advance (to take advantage of a discounted price) but the child is ultimately unable to attend all the labs for reasons outside of HAU's responsibility.

Disclaimer: The Hellenic American Union reserves the right to modify the dates and/or times of the labs if the maximum number of participants is exceeded or if the minimum required number of participants is not reached.
